

Bleeding Ulcers

This is a variation of a pattern used in the skills competition at the 2012 Texas HOG Rally in Ft Worth, Texas by the Texas Kone Killers. The dimensions have been refined to what I believe is the limit of a stock Harley Davidson touring motorcycle. **The box area is 53' long by 28' tall, inside dimensions.** The pattern difficulty can be lessened by increasing the gate dimension from 6 feet in the clear to 6'-3" in the clear, making the inside dimensions 53' x 28' 6". Still difficult, but attainable.
